Description

This notice announces the availability of funds and solicits from eligible entities project proposals to receive financial assistance through the Community Action for a Renewed Environment (CARE) program. CARE is a unique community-based, community-driven, multimedia demonstration program designed to help communities understand and reduce risks due to toxics and environmental pollutants from all sources. The CARE grant program works with the eligible entities to help their communities form collaborative partnerships, develop a comprehensive understanding of the many sources of risk from toxics and environmental pollutants, set priorities, and identify and carry out projects to reduce risks through collaborative action at the local level. CARE's long-term goal is to help communities build self-sustaining, community-based partnerships that will continue to improve human health and local environments into the future. This is the fourth year requesting proposals for the CARE grant program; the first was in the spring of 2005.

INVESTIGATION OF THE ASSOCIATIONS BETWEEN AIR POLLUTION AND HEALTH
USING ALTERNATIVE ESTIMATES OF HUMAN EXPOSURE Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	EPA-ORD-07-28347
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 30, 2008 Please refer to the full announcement, including Section IV, for additional information on submission methods due dates.
Expected Number of Awards:	2
Estimated Total Program Funding:	\$400,000
Award Ceiling:	\$200,000
Award Floor:	\$100,000
CFDA Number:	66.511 -- Office of Research and Development Consolidated Research/Training
Cost Sharing or Matching Requirement:	No

Eligible Applicants

State governments
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)
Private institutions of higher education
County governments
City or township governments
Others (see text field entitled "Additional Information on Eligibility" for clarification)
Individuals

Additional Information on Eligibility:

See Section III for additional eligibility information.

Description

It is anticipated that the agreements that are awarded will involve or relate to geospatial information. The U.S Environmental Protection Agency (EPA) is seeking applications that propose development and evaluation of alternative human exposure indicators/estimates of PM (particulate matter), gaseous criteria

pollutants (e.g. nitrogen dioxide, ozone), or air toxics (e.g., benzene, formaldehyde and other motor vehicle related volatile organic compounds) in the examination of the associations between outdoor air pollution and human health effects. The ultimate objective of this research is to demonstrate the utility of improving the exposure assignments made in the commonly performed epidemiologic studies of effects of ambient air pollution on human health.
